

Gammon stands out as the gateway for Technological and Engineering excellence in Civil Engineering Fields.

In 1934, Asia's first Hyperbolic Cooling Tower was built by Gammon. Since then, Gammon has been executing projects of National Pride for Mechanical and Induced Draft Cooling Towers. Under Gactel Turnkey Projects Limited (Formerly Gammon Cooling Towers Limited), we undertake projects for Cooling Towers, Chimneys, Industrial Structures and Water & Waste Water Treatment on turnkey basis.

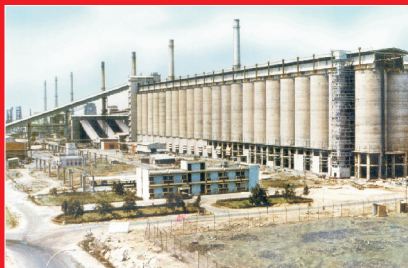

Engineering excellence, innovative project management solutions backed by Gammon experience, resources and a team of more than 200 dedicated professionals ensures timely and safe completion of contracts.
